Lifelong Learning Programme

MINUTES OF MEETING

The second meeting of the project Comenius Multilateral *Building their Tomorrows, Today!* **SIROCCO!** was organized from 26 February to 1 March 2012, in Don Benito, Spain.

The following participants took part in this meeting:

Portugal EPA: Sofia Tiago, Luís Reis and 7 students

Estonia: Silva Sikk , Margit Rebane, Raili Reimets and 3 students

Italy: Sabina Viridis, Francesca Nioi, Giorgina Bibiri, Lorenzina Marotto and 6 students

Turkey: Murat Gencer, Mustafa Ekinici, Turan Karadeniz, Erhan Hobek and 6 students

UK: Kim Johnson , Noreen Byrne, Susie Hitchings and 4 students

Spain: 28 teachers and 20 students

On 27 February, after the welcome meeting and the visit of the school facilities, all partners introduced themselves and showed their presentations concerning respective institutions.

During the afternoon, on a teachers meeting, the following was said:

- so far, and according to the plan, we did:
 - The project's website
 - The logos
 - The logo contest
 - The questionnaires statistical study
 - Joint activities addressed to handicapped and not handicapped people as a group

- Concerning the next meeting, in Turkey: 19th - 26th of May

Istanbul is the cheapest destination – Murat can arrange flights from there to Kayseri - cheap flights (13€ to 30€) and book the tickets. However, the Portuguese group has already bought the tickets leaving on 20 May and cannot change the tickets, unfortunately.

According to the programme it will begin on Monday, but it is possible to plan something in Istanbul – Murat will arrange accommodation there and will meet the whole group and guide us on a city tour. We should take as many students as possible as it isn't that expensive and they are trying to find a cheap hostel.

- Concerning the logo contest, the partnership agreed that it could be done online, inserted in the project's webpage. Therefore, the Portuguese team will send an e-mail to all partners with the exact polling dates.
- Regarding the training needs questionnaires the group discussed the statistical study (already posted on the webpage).
- For the next meeting, Murat and his team will prepare one or more in-service training workshops related to one of the four top mentioned training needs in the statistical study.

- An activity for the pupils will also be organized by the Turkish team.
- The project webpage was presented.
- As about the first newsletter, to be released at the end of this school year, each partner must send the Portuguese team, in advance, information on project meetings, local activities and in-service training workshops (Portugal on Autism; Spain on Bullying and Turkey on ????) in a very reduced form, including photos. The layout of the newsletter will be discussed through e-mail.
- Every partner will contribute for the E-folio: with activities and pedagogical tools – plans, according to the application form. Each partner agreed to send the Portuguese team all the outcomes, activities and photos so everything is posted on the website.
- Every partner will contribute for the E-FAQ (How to deal with Specific Special Needs - to be included in the Project web page)

At the end, the partnership evaluated the second meeting. It was agreed that the meeting was very good, communication between partners was also very efficient and smooth, the whole team worked together and every opinion was taken into consideration.

Apart from the meetings concerning the project work, the group had the chance to participate in some cultural and leisure activities according to the enclosed programme.
